Cleaning Machines

## AERO 8/15 Plus

The “All-In-One” feature combination with highest efficiency and ultra-low noise

### **TASKI AERO 8/15 PLUS**

The TASKI AERO 8/15 PLUS high-efficiency vacuum cleaner uses state-of-the-art technology and has a super-efficient motor. With the patented TASKI whisper technology, the vacuum cleaner works ultra-silently. Based on a symbiosis of technology and functional design, the PLUS series offers unmatched ease of use combined with a unique range of features. What's more, replacement of parts such as cables and filters is simplified by clever design and can be carried out by the user in seconds without the need for any tools.

### **TASKI AERO 8/15 PLUS brings you:**

- Advanced features in a unique combination
- Sustainable high-efficiency concept with Eco function
- Ultra-silent TASKI whisper technology
- Designed and tested according to operational best practice

### **Advanced features in a unique combination**

The TASKI AERO PLUS range offers a unique combination of features for unrivalled efficiency and ease of use. The combination of integrated cable winding, full dust bag indicator and eco mode guarantees highly productive and excellent cleaning in any environment and at any time of day. All these features are based on reliable tried and tested technologies.

### **Sustainable high-efficiency concept with Eco function**

The new TASKI AERO tub vacuum cleaners are highly efficient and use a 585W state-of-the-art vacuum motor, which delivers the same cleaning performance as vacuums with 900W or more. In addition, the TASKI AERO PLUS has an eco button which reduces energy consumption to 295W. As a result, the vacuum cleaner saves significant amounts of energy and reduces CO2 emissions without compromising on cleaning results at all.

### **Ultra-silent TASKI whisper technology**

Thanks to an innovative and patented TASKI whisper technology system, the TASKI AERO is extremely quiet. This low noise level means it can be operated in any environment at any time of day or night. With the eco-mode button, noise emissions can be reduced to a minimum, setting a new standard in professional cleaning.

### **Designed and tested according to operational best practice**

The product is designed for very frequent professional cleaning in any environment. Every aspect of the product is based on an extensive customer and process evaluation with the aim of delivering the highest cleaning quality and best operating efficiency. In terms of ergonomic design, the TASKI AERO PLUS is unmatched, with a foot pedal switch, two park positions and a high-quality user-friendly accessories set as standard.
